Spring is a perfect time to simplify and organize

Spring 2010

Expert Advice

March 20th marks the 1st day of Spring. Let's get an early start to spring cleaning!

Our designers can help you simplify and organize any space in your home. A custom organization system will give you more workable space and rid clutter in any area of your home.

How do we cut through the clutter?

We comb through each room and choose 5 things to either sell on craigslist, donate to the local Salvation Army or to a friend. We choose things that are either broken, we don't love or are no longer useful. Maybe we've outgrown a throw pillow, or can accept that we're never going to fix that lamp or that the side table is really unnecessary. When we get proactive about what we want to keep, it makes us feel empowered to get rid of what's dragging us down. When we can choose 5 things (start small if you need to) it feels so good that it motivates us to keep going, making space, lightening the load.

Here are some of the things that have made it out the door over the years:

- Frames we were saving [just in case](#)
- [Clothes](#) that have holes or we've outgrown (no we don't hang onto them for when we lose weight)
- Chipped dishes or dishes we don't love
- Side table that was too bulky in the living room
- Books! We keep the ones we love, not the ones to impress guests
- [Old Towels](#) (we donate them to shelters)
- Miscellaneous stuff [in the bathroom](#)

Organize Your Closet, Organize your Life

The best way to organize your closet is create a system. Simply folding your clothes and finding a place for them among piles may get the clothes off the floor but it's not going to organize the space. With a customized organizational system you can have the following options:

- Long and short hanging areas
- Adjustable shelving
- Baskets and/or drawers
- Belt racks
- Tie racks
- Valet rods

There are many options to offer additional space and organization for your closet.

When we get proactive about what we want to keep, it makes us feel empowered to get rid of what's dragging us down
