Advice from the Experts

At All About Closets, we are all about you and creating value for our clients. As part of our commitment to you, we've partnered with the best of the best to provide our clients with valuable ideas and advice for the home, office or life in general. This month we surveyed our team and put together a list of our favorite home organization tips.

Back to school tips

As school gets into full swing many families find themselves adjusting schedules and developing new routines to make way for a successful year. Setting up a designated homework area in your home is an excellent way to support your children's success.

Start by selecting a designated homework area such as a home office, kitchen table or bedroom. Be sure that wherever you chose, there is enough space for children to be able to spread out their work and necessary homework supplies. Next, organize all of their supplies into a plastic bin or box, so that all of their paper, pencils, markers, glue and other homework tools are easily accessible. Personalizing their area is a great way to get them excited about their space. Establishing a designated homework area helps children stay organized and keeps them focused on the task at hand.

Fall Into a Routine

When it comes to organization, developing a routine can be the key to success. Below are a few quick tips that if done repeatedly can lead to an everyday organized lifestyle

1. Plan ahead – Choose your clothes for the next day the night before.
2. Go through your mail daily and divide it into separate categories
 - Action required (Pay, call, RSVP)
 - File
 - Shred and toss (keep a shredder near your waste/recycle)
3. Invest in a custom organizational system complete with a built-in jewelry drawer, laundry basket or ironing board (select from dozens of accessories!)
4. If it's dirty-throw it in the hamper! Get your family accustomed to this routine and finding favorite pieces might get a little easier
5. Designate a space for everything. Start with the essentials (keys, ties, earrings, belts, etc).

“Establishing a designated homework area helps children stay organized.”

Fall in love with your home all over again with a new custom organizational system that not only maximizes your space, but adds value to your home. Visit our online showroom for a preview of some of our favorite spaces.
