Summer 2010

Get organized now to enjoy the sunshine later!

### Expert Advice

The summer months are almost here! Take a few minutes now to get organized and you will be able to make better use of free time when the sun is shining!

### Organizing and Designing Go Hand-in-Hand!

As a professional organizer, I am inundated with closet organizing requests during this time of the year. Typically, I steer my clients *away* from stores offering organizing products simply because it often adds to their existing clutter. I'm a believer in systems more than products, and that's why closet systems complement my services well. Organizing is not about just making your space look pretty, but also about being able to find what you need quickly (i.e. when every item has an assigned home).

The closet systems designed by All About Closets are catered to each individual client by carefully accommodating their lifestyle. As the owner of Organizing With You, Inc., our business motto is to help clients get organized, and stay organized beyond our services. So how does a professional organizer and a closet company work together?

Before All About Closets:

- We help you look through your closet first (often clients have forgotten about their "stuff") during an initial assessment
- We help you purge through items after evaluating need, fit, number of times worn etc.
- We even take items you dispose to local donation centers

Once we have completed this process and created new space, All About Closets will design the right system for you. For example, if you still own 25 purses at the end of your organizing session, they will ensure that your new unit will fit all 25 of them perfectly.

After All About Closets:

- We place everything back in your newly designed system
- We will coach you with tips on hanging, folding and storing your clothes
- We will reevaluate your habits to devise a maintenance plan, so you can use your closet system most efficiently

### Favorite Closet Organizing Tips

- 1) If you haven't worn it in 18 months, it's time to give it away.
- 2) Sort clothes seasonally and store away out-of-season clothing.
- 3) Invest in retail hangers and keep them uniform (throw wire hangers out)!
- 4) Double hang clothes to make maximum use of space.
- 5) Never hang sweaters!

***And remember... It's all about what makes you look good in the present!***
